EDUCATION

BMS Institute of Technology and Management

B.E in Computer Science and Engineering; CGPA: 8.8 (As of 3rd year)

Bengaluru, Karnataka

April 2026 – Present

Alvas Central School

Class I-XII

Mangalore, Karnataka

Apr. 2011 – Jul. 2023

EXPERIENCE

AI/ML Intern

Nov. 2025 – Dec. 2025

Emberquest([certificate](#))

Bengaluru, Karnataka

- Developed an AI-powered voice assistant for visually impaired users, integrating speech recognition, OCR, and text-to-speech to enable fully hands-free interaction
- Achieved low-latency real-time performance (~0.15s response time) while processing voice commands and extracting text from images using an optimized pipeline

TECHNICAL SKILLS

Languages: C/C++, Python, Java (Basic)

Frameworks: HTML/CSS, MySQL, JavaScript, Bootstrap, PHP, Tailwind CSS, Node.js, TypeScript

Tools: Git, Google Cloud Platform, VS Code, Visual Studio

Coding Platforms: Leetcode, HackerRank (5-star)

Concepts: Networking, Software Development, REST API, Devops, Web Application Development, DSA Software Systems, Operating System, DBMS, Linux, NLP, Machine Learning, OPDS

PROJECTS

BMSIT Alumni Management System | HTML, CSS, JavaScript, PHP, MySQL [Live demo](#)

Jun. 2025

- Developed and deployed a full-stack alumni management platform, enabling centralized storage and management of alumni data, improving data accessibility and administrative efficiency.
- Built a secure admin dashboard with CRUD functionalities, streamlining alumni record management and reducing manual data handling efforts. Designed and optimized a MySQL database schema for efficient data retrieval and scalability, supporting structured storage of alumni and event data.

Pashudhan | React, TypeScript, TensorFlow.js, IndexedDBMySQL, HTML [Live demo](#)

May. 2025

- Developed a client-side AI-powered livestock management platform, integrating herd tracking, breed database, and real-time breed recognition using a browser-based ML pipeline.
- Implemented transfer learning with MobileNet in TensorFlow.js, enabling low-latency (~100–200ms) breed classification with model persistence via IndexedDB for efficient reuse..

Clev-Calculator | HTML, CSS, JavaScript, Bootstrap, Three.js [Live demo](#)

Aug. 2025

- Engineered a responsive, cross-platform scientific calculator leveraging Bootstrap, HTML, CSS, and JavaScript, ensuring seamless performance and accessibility across all devices, while dramatically elevating user experience and interface efficiency.

VOLUNTEERING

Member, Google Developer Student Club (GDSC)

Aug. 2025 – Mar. 2026

BMS Institute of Technology and Management

Bengaluru, Karnataka

- Completed over 15 Google Cloud Skill Boost challenges, demonstrating advanced proficiency in cloud technologies, resulting in enhanced capabilities that improved team cloud deployment with efficiency 25%.
- Led completion of 8+ challenges in Google Cloud, improving skills in cloud computing.

ACHIEVEMENTS

- Top 10 in Code Sprint 3.0 (GDG NMIT), Jul. 2025.
- Came in Top 5 rankings in inCESption Challenge – Apr. 2025.
- Solved 200+ questions on LeetCode and earning multiple badges like leetcode annual badge 2023 and daily problems badge.
